

GENEX SOW

Genex Sow is a multi-component acid based product containing essential oil and plant extracts. Specially formulated to support sow performance in gestation and lactation, helping to ensure strong and healthy piglets at weaning.

Pig

Acid-Based Gut Health Supplement for Pigs - Sows

Specifically designed for use in sows to promote a healthy digestive system and for the benefit of her piglets during weaning.

A well-balanced and diverse gut microflora has a positive impact on the metabolic and immune systems of the animal, which is beneficial to overall health and performance.

Key Benefits

- ✓ Supports good gut health and metabolism.
- ✓ Helps keep pathogenic bacteria in check.
- ✓ Reduces energy costs on the sow, improving efficiency of performance.
- ✓ Increases piglet birth weight and weaning weight.
- ✓ Promotes development of a balanced gut flora.
- ✓ Helps a healthy animal achieve its genetic potential.
- ✓ The active ingredients are known to control the growth of *Campylobacter*, *Salmonella*, *E. coli*, and other gram-negative microorganisms in raw materials and finished feed.
- ✓ Essential oil and plant extracts are selected for their 'triple-anti' properties: antioxidant, antibacterial and anti-inflammatory.
- ✓ Anpario's unique carrier system transforms the liquid actives into a free-flowing powder, ensuring the product's long-lasting activity throughout the gut.
- ✓ Can be used as part of a programme to reduce use of anti-microbials.

How to Use

It is advised for Genex Sow to be mixed thoroughly into feed at the rate of 4 kg/tonne of feed (4 g/kg of feed).

For best results, use continuously throughout lactation and gestation periods.

Once opened, ensure the bag is tightly sealed between use to ensure longevity of the product, and store in a cool, dry area away from heat and damp conditions.
