

OREGO-STIM POWDER

Orego-Stim Powder is an all-natural free-flowing product consisting of high quality oregano essential oil. Designed to help improve your animals' overall health and wellbeing via gut regulation.

Pig

Oregano-Based Essential Oil Additive to Support Pig Gut Health

Oregano essential oil is widely documented for its impressive range of health benefits; in particular its antimicrobial and antioxidant properties makes it highly sought after for use in livestock production systems to support a healthy digestive system and boost natural disease resistance.

Orego-Stim Powder is part of Anpario's leading Orego-Stim range, which contains essential oil from the oregano plant that is specific to Anpario. The plants are cultivated to have the perfect balance of active ingredients that include carvacrol and thymol, this is beneficial in stress response management, gut health and appetite improvement, all of which are essential for keeping your pigs healthy and happy.

The Orego-Stim range is manufactured in the UK using proprietary techniques and rigorous quality standards to ensure a consistently high quality product.

Key Benefits

- ✓ Aromatic smell of oregano essential oil can improve palatability of feed and help encourage voluntary feed intake, maintaining a healthy appetite.
- ✓ Supports a healthy digestive system and helps boost nutrient absorption.
- ✓ Help improve early piglet weight gain when provided to sows.
- ✓ Improve efficient growth performance.
- ✓ Optimises the animals' natural defence mechanism and boosts natural disease resistance.
- ✓ Improves antioxidant status and stress defence.
- ✓ Trials show that Orego-Stim Powder can help maintain intakes through periods of stress, e.g. weaning, mixing, transportation etc.
- ✓ In trials, Orego-Stim has been shown to help reduce intestinal damage associated with ileitis.
- ✓ Versatile, reliable and complements vaccination programmes.
- ✓ Safe to use throughout the year, with no withdrawal period.
- ✓ Orego-Stim Powder is approved by OF&G as suitable for use in Organic Systems.
- ✓ Can be used as part of a programme to reduce use of antimicrobials.

How to Use

Add to feed at rates given below, ensure thorough mixing.

Creep feeding up to 15 days post-weaning
1 kg per tonne of feed (10 g/10 kg of feed).

15 days post-weaning to 25 kg bodyweight
500 g per tonne of feed (5 g/10 kg of feed).

25 kg bodyweight to slaughter
250 g per tonne of feed (2.5 g/10 kg of feed).

Gestating & lactating sows
500 g per tonne of feed (5 g/10 kg of feed).

Please Note:

Orego-Stim Powder should not be used in an undiluted form.

Once opened, ensure the bag is tightly sealed between use to ensure longevity of the product, and store in a cool, dry area away from heat and damp conditions.
