

OPTOMEGA LIQUID SH

Optomega Liquid is a leading Omega-3 fatty acid supplement. Made from 100% natural high quality fish oil, it is an excellent source of energy for your animals.

Equine

Omega-3 Fatty Acid Supplement for Horses and Ponies

Optomega Liquid is a leading Omega-3 fatty acid supplement. Made from 100% natural high quality fish oil, it is an excellent source of energy for your horse.

When looking for an Omega-3 source, it is essential to choose the right one. EPA and DHA are the two most biologically important Omega-3 fatty acids because they are readily available for the horse to utilise. However, unless a right level of EPA & DHA are supplied, the benefits of supplementing will not be seen.

Optomega Liquid provides a sustainable source of Omega-3 for your horse.

Key Benefits

- ✓ An excellent source of energy that is readily digestible, good for horses who will not tolerate a high starch diet.
- ✓ Reduces inflammation, stiffness and joint pain associated with movement.
- ✓ Helps to improve skin and coat health, ideal for showing animals.
- ✓ Support's the animal's natural defences, strengthening their immune systems.
- ✓ Helps mitigate the negative impact of Omega 3:6 imbalance, which affects energy available and overall performance.
- ✓ Omega-3 fatty acids are known to aid fertility.
- ✓ Sustainably sourced ingredients.

How to Use

Introduce to the feed over a number of days up to the specified dose rate given below, ensure thorough mixing. Do not store once mixed, prepare fresh each time.

Horses (500 kg and over)

Feed 60 ml per day.

Ponies

Feed 30 ml per day.

For best results, include as part of a balanced diet and use continuously.

Once opened, ensure the lid is tightly sealed between use to ensure longevity of the product. Store in a cool, dry area away from heat and damp conditions.
