

OPTOMEGA LIQUID SH

Optomega Liquid is a leading Omega-3 fatty acid supplement. Made from 100% natural high quality fish oil, it is an excellent source of energy for your animals.

Ruminant

Omega-3 Fatty Acid Supplement for Ruminant - Smallholder

Optomega Liquid is a leading Omega-3 fatty acid supplement. Made from 100% natural high quality fish oil, it is an excellent source of energy for your animals.

When looking for an Omega-3 source, it is essential to choose the right one. EPA and DHA are the two most biologically important Omega-3 fatty acids because they are readily available for the animal to utilise. However, unless a right level of EPA & DHA are supplied, the benefits of supplementing will not be seen.

Optomega Liquid provides a sustainable source of Omega-3 for your animals.

Key Benefits

- ✓ An excellent source of energy that is readily digestible.
- ✓ Helps mitigate the negative impact of Omega 3:6 imbalance, which affects energy available for growth and overall performance.
- ✓ Enhances lactation performance and hence a better milk yield.
- ✓ Omega-3 fatty acids are known to aid fertility and reduce calving intervals.
- ✓ Enhance sperm quality and mobility.
- ✓ Helps to improve coat quality and sheen, ideal for showing animals.
- ✓ Omega-3 fatty acids support the animal's natural defences, strengthening their immune systems.
- ✓ Omega-3 fatty acids have anti-inflammatory properties which can help improve disease resistance and joint mobility.
- ✓ Sustainably sourced ingredients.

How to Use

Add to feed at rates given below, ensure thorough mixing. Do not store once mixed, prepare fresh each time.

Dairy Cow

80 ml/cow/day, 21 days pre-calving until pregnancy is established.

Beef Cattle

80 ml/head/day.

Sheep & Goat

15 ml/head/day.

For best results, use continuously.

Once opened, ensure the lid is tightly sealed between use to ensure longevity of the product. Store in a cool, dry area away from heat and damp conditions.
