Poultry

Omega-3 Fatty Acid Supplement for Poultry Rich in EPA/DHA

Optomega Plus is a leading Omega-3 fatty acid supplement. Made from 100% natural high quality fish oil and specifically formulated to ensure consistent levels of EPA and DHA.

When looking for an Omega-3 source, it is essential to choose the right one. EPA and DHA are the two most biologically important Omega-3 fatty acids because they are readily available for the bird to utilise.

However, unless a critical level of EPA & DHA are supplied, the benefits of supplementing your birds will not be seen. Optomega Plus is especially formulated to ensure it provides a consistent and active level of EPA & DHA, which is why it is so effective!

Comes in the form of a dry, free-flowing powder, it is easy to handle and can be incorporate into feed or used as a top dressing. Additionally, we use unique foil-lined bags for our Optomega Range, so product consistency and shelf-life is guaranteed.

Key Benefits

- ✓ An excellent source of energy that is readily digestible.
- ✓ Especially formulated for Omega-3 enrichment of eggs and meat.
- ✓ Help improve overall egg quality.
- ✓ EPA and DHA are known to aid fertility and can help improve egg hatchability.
- ✓ Helps mitigate the negative impact of Omega 3:6 imbalance, which affects energy available for growth and overall performance.
- ✓ EPA and DHA supports the animal's natural defences, strengthening their immune systems.
- ✓ EPA and DHA are widely known for their anti-inflammatory properties.
- ✓ Supplementation with Omega-3 fatty acids have shown to improve bone strength and density.
- ✓ Helps to improve feather condition and shine, ideal for showing birds.
- ✓ Sustainably sourced ingredients.

How to Use

Add into feed at rates given below, ensure thorough mixing or spread evenly as a top dressing.

Laying Birds: 20 kg/tonne of feed (20 g/kg of feed).

Omega-3 Enriched Eggs: 30 kg/tonne of feed (30 g/kg of feed).

Breeding Birds: 20 kg/tonne of feed (20 g/kg of feed).

Table Birds: 20 kg/tonne of feed (20 g/kg of feed).

Turkeys: 20 kg/tonne of feed (20 g/kg of feed).

Ducks: 20 kg/tonne of feed (20 g/kg of feed).

Game: 20 kg/tonne of feed (20 g/kg of feed).

For best results, use continuously.

Once opened, ensure the bag is tightly sealed with excess air removed between use, to ensure longevity of the product. Store in a cool, dry area away from heat and damp conditions.
