

SALKIL POWDER

Salkil Powder is a versatile and effective bacterial decontaminating agent. Designed specifically with poultry breeders in mind, it can be added to raw materials and finished feed to improve feed hygiene and support healthy growth of your birds.

Poultry

Acid-Based Additive for Poultry Feed

The risk from bacterial contamination of feed and water, if left unresolved, can have a detrimental impact on animal health and performance.

Salkil Powder is especially designed to help control levels of harmful bacteria in feed and feed ingredients. It contains formic acid which has been approved by the EU for use as a 'feed hygiene enhancer', effective against *Salmonella spp.* and other harmful bacteria; thereby protecting your birds from potentially pathogenic bacteria and helping to promote a balanced gut microbiota.

Key Benefits

- ✓ Contains organic acids, with known antimicrobial activity.
- ✓ Can promote the development of a healthy beneficial gut bacteria and prevent the development of pathogenic bacteria within the digestive tract.
- ✓ A well balanced gut microbiota has many benefits for efficient growth and reduced need of antibiotics.
- ✓ Active ingredients help the control of *Campylobacter*, *Salmonella*, *E. coli* and other gram-negative microorganisms in raw materials and finished feed.
- ✓ Assists in the acidification of feed which can improve palatability and digestibility.
- ✓ Supports a strong gastric barrier which is essential for maintaining general health.
- ✓ Promotes fertility and increases hatchability.
- ✓ Increases percentage of 1st grade eggs.
- ✓ Helps prevent mould growth.
- ✓ Helps a healthy animal achieve its genetic potential.
- ✓ Trusted and used by leading poultry producers worldwide.

How to Use

Suitable for table birds, layers, turkeys, ducks and game birds.

Include into feed and feed ingredients using the following rates, ensuring thorough mixing; alternatively, use as a top dressing.

Standard Application

2 kg/tonne of feed (2 g/kg of feed).

Under severe challenges, application rate may be increased accordingly.

For best results, use continuously.

Once opened, ensure the bag is tightly sealed between use to ensure longevity of the product, and store in a cool, dry area away from heat and damp conditions.
